

## *International Studies Major Fall 2021 Course Offerings*

### **CHECK YOUR MAJOR CONTRACT AND CATALOG YEAR!**

*The major changed in 2017-2018. **Check your major contract (if you have one) and catalog year to determine what applies in your case. This information should be on your DARS and, if you have questions, there is guidance on the IS website. Also consult your advisor!***

*Students are required to have a plan for their next three semesters on DARS Planner. This includes indicating when you will be studying abroad. This should be very helpful as it will also warn you if courses you are planning to take are expected to be on offer – especially on your return from abroad. Please learn how to use this tool.*

*If you have not **officially declared a Concentration**, your DARS may not accurately reflect your progress. If this seems to be a problem, you should correct this as soon as possible via a ‘change of major’ form on the INTL website. Discrepancies may delay your time to graduation.*

*Also as you plan for your study abroad, be **SURE to plan for any course substitutions** and get permission for these **BEFORE** you go. Failure to do so may result in courses taken abroad not counting for your major.*

### **LANGUAGE REQUIREMENT**

INTL students may satisfy the language requirement in a number of ways. If German, French, or Spanish is pertinent to your concentration, you are encouraged to sign up for language classes at HSU. These classes will be very beneficial before your study abroad. You do not have to take five semesters of language, rather you have to show proficiency at that level. The easiest way to do that is to pass a fifth semester language class (any class taught in the target language at the 300 to 400 level).

Some students (Heritage Speakers of Spanish and non-Heritage Speakers) may be able to jump directly to the 300-400 level. One upper division class (of 3 or more units) will satisfy the language requirement.

If you are not ready to jump to the upper division classes, sign up for language classes NOW. In general, each year of high school language class is equivalent to one semester of language at the university (so, for example, if you took two years of language in high school, take a third semester course at HSU).

**Heritage Speakers of Spanish** are encouraged to take the Heritage Speakers course sequence (SPAN 108 and SPAN 208), which will satisfy the INTL language requirement. SPAN 108 is offered in the fall and SPAN 208 is offered in the spring.

Consult the class schedule for German, French, and Spanish courses offered fall 2021. Some students will satisfy the language requirement through study abroad. For languages other than those offered at HSU, it may be possible to take language courses at other CSUs. Consult World Languages and Cultures ([md93@humboldt.edu](mailto:md93@humboldt.edu)) for further guidance on language classes.

## FALL COURSE LIST

*The following course list includes regularly offered courses noted in the catalog as fulfilling International Studies requirements AND new or Special Topics courses approved as appropriate substitutes.*

For **Core Curriculum** and **Concentrations**:

- *Be sure to check your SPECIFIC catalog year and note differences that took effect for 2017 (eg INTL 387 and INTL 320 are now both required as part of the core).*
- **Courses marked with an asterisk (\*) are not granted by any catalogs but relate to the topic**

*If you find classes that are not on this list, but that you believe would be appropriate to your concentration, bring the course description to your advisor and seek permission BEFORE you register.*

*One-unit courses must be combined with other courses in order to count towards the unit requirement in the concentration.*

## NEW INTL CLASS

*This course counts toward any concentration.*

- INTL 480 Special Topics – International Education Week (IEW) Event Planning  
IEW occurs in the fourth week of classes in the spring semester. This special topics class is the planning hub for IEW programming. As such, the work is spread across both fall and spring semesters. Students are expected to help plan/organize/promote the event and participate in one IEW session. During IEW, students will help ensure the event runs smoothly. IEW is an annual event at HSU that seeks to find the global in the local and to bring the global here to Humboldt (see: <https://iew.humboldt.edu/>). Space is limited and a permission number is required so email asap: [alison.holmes@humboldt.edu](mailto:alison.holmes@humboldt.edu).

## SKILLS CLASSES

*These classes are not listed in any catalog, but may be useful to you and INTL faculty have opted to allow students to use them where relevant. Talk to your adviser about how to account for them on your contract/DARS Planner.*

- **ESM 435 Grant Proposal Writing** (online; W 1700-1750 and asynchronous; instructor Julie Van Sickle)
