

International Studies Major Fall 2018 Course Offerings

CHECK YOUR MAJOR CONTRACT AND CATALOG YEAR!

*The major changed as of the 2013-14 catalog year and in 2017-2018. **Check your major contract and catalog year** to determine what applies in your case. This information should be on your DARS and, if you have questions, there is guidance on the IS website. Also consult your advisor!*

*As we continue to move away from hard copy major contracts, students are required to have a plan for their next three semesters on DARS Planner. This includes indicating when you will be studying abroad. This should be very helpful as it will also warn you if courses you are planning to take are expected to be on offer- especially on your return from abroad. Please learn how to use this tool and **BRING THE PDF PRINT OUT TO YOUR ADVISING MEETING.***

*If you have not **officially declared a Concentration**, your DARS may not accurately reflect your progress. If this seems to be a problem, you should correct this as soon as possible via a 'change of major' form on the IS website. Discrepancies may delay your time to graduation.*

*Also as you plan for your study abroad, be **SURE to plan for any course substitutions** and get permission for these **BEFORE** you go. Failure to do so may result in courses taken abroad not counting for your major.*

FALL COURSE LIST

The following course list includes regularly offered courses noted in the catalog as fulfilling International Studies requirements AND new or Special Topics courses approved as appropriate substitutes.

For Core Curriculum and Concentrations:

- *Be aware that some courses are listed as "For catalog years prior to 2013/2014"; be sure to check your **SPECIFIC** catalog year and note differences that take effect for 2017 (eg INTL 387 and INTL 320 are now both required as part of the core).*
- **Courses marked with an asterisk (*) are not granted by any catalogs but relate to the topic**

*If you find classes that are not on this list, but that you believe would be appropriate to your concentration, bring the course description to your advisor and seek permission **BEFORE** you register.*

One-unit courses must be combined with other courses in order to count towards the unit requirement in the concentration.

SKILLS CLASSES

These classes are not listed in any catalog, but may be useful to you and INTL faculty have opted to allow students to use them where relevant. Talk to your adviser about how to account for them on your contract/DARS Planner.

- ENGL 215 Information Literacy and Writers Seminar (T 1300-1450 or W 1700-1850)
